EXPERIENCE

The Jitu Ltd

Nyeri, Kenya

Software Engineering Intern

May 2023 - July 2023

- Developed an individual full-stack social media application, demonstrating proficiency in both frontend (React) and backend (Node.js) development, while enhancing communication skills through regular team updates and collaboration.
- Collaborated on multiple full-stack applications, contributing to various stages of development and honing problem-solving abilities within a dynamic team environment.

Texas Computer College

Kirinyaga, Kenya

Tutor

2017 – 2019

- Provided comprehensive instruction in computer applications, maintenance, and expert technical support to ensure smooth operation and user satisfaction.

PROJECTS

Vertives Social Media App | <https://github.com/emmanuelkaringi/vertives-social-app>

- Developed an engaging social media application using React and Node.js, employing a microservices architecture for scalability.
- Managed complex data structures with SQL Server, optimizing performance, and enhanced user experience by integrating Cloudinary for efficient media management.

Azure Resume Challenge | <https://www.emmanuelkariithi.me/>

- Leveraged the power of Azure Functions to seamlessly interact with Cosmos DB, effectively managing counter data and ensuring real-time updates for a dynamic user experience.
